Coarse_times wrt Evt_ID for channel 7 (ping)

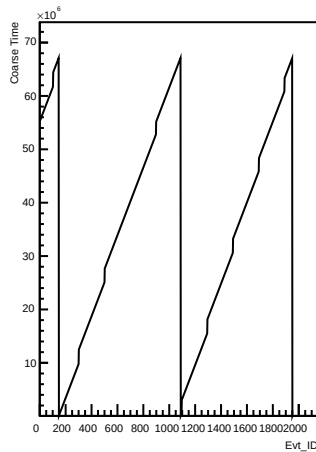

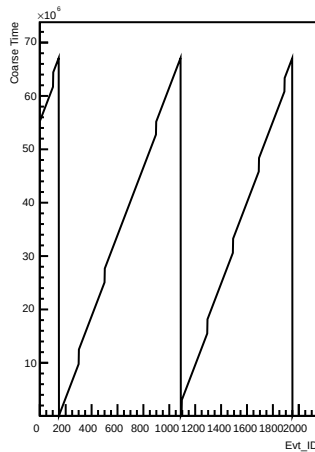

The graph plots Course Time (Y-axis, 0 to 70 $\times 10^6$) against Event ID (X-axis, 0 to 2000). The data is represented by a jagged line that shows an overall upward trend with periodic resets. The line starts at (0,0), rises to a peak of approximately 68 $\times 10^6$ at Event ID 200, then drops sharply to about 10 $\times 10^6$ at Event ID 400. It continues to rise to another peak of about 68 $\times 10^6$ at Event ID 1000, drops to 10 $\times 10^6$ at Event ID 1200, and rises again to a peak of about 68 $\times 10^6$ at Event ID 1800, before dropping to 10 $\times 10^6$ at Event ID 2000. The vertical lines at Event IDs 1000 and 1800 represent the points where the course time is reset.
